**National
Cystic Fibrosis
Awareness
Month**

May 1 - 31, 2005

Cystic Fibrosis (CF) is one of the most common life-threatening genetic diseases in the United States today. Well over 30,000 people in the U.S. have CF. Many of them are children.

Please help bring CF to public awareness. Learn more about it and/or share what you know with others.

Call: (719) 634-6285 • Email: lenoradegen@msn.com
1612 N. Foote Ave., Colo Springs, CO 80909
www.cfawareness.org

CF Awareness Month was declared by resolution of the U.S. Senate for May, 2004.
Contact your 2 state senators in Washington, D.C. to ask them to sponsor another resolution for
CF Awareness Month, May, 2005.
